ITWORX®

Data & AI

Your Trusted Partner for AI & Data-Driven Success

Drive unprecedented efficiency, innovation, and competitive advantage in the age of intelligence. We offer a complete suite of services across Artificial Intelligence (AI), Machine Learning (ML), Data, and Analytics.

Empowering Your
AI Journey

Our Core Services:

Data and Analytics

Agentic AI & Intelligent Automation
Deploy autonomous AI agents to automate complex workflows, augment human capabilities, and drive operational efficiencies at scale.

Data Visualization & Business Insights generation
Transform raw data into interactive visualizations and empower self-service analytics.

AI Solutions
Comprehensive AI/ML-powered solutions combining data, AI/ML models, and software applications while adhering to responsible AI principles.

Advanced Infrastructure

High performance GPU Infrastructure service:
A powerful, DevOps-driven infrastructure that enables the deployment, scaling, and management of Large Language Models (LLMs) across any environment cloud or on-premises with speed, consistency, and performance.

Data Foundation (cloud platforms, governance, quality):
Data Engineering and Management to establish single point of truth.

GenAI and Agentic AI Accelerators

Unlock Your Business's Full Potential with ITWorx Accelerators!

ITWorx offers various accelerators, which are reusable components, software libraries, methodologies, and frameworks designed to speed up AI development and adoption.

WorkWise AI
Solves the data access dilemma by leveraging Agentic AI & Gen AI to provide instant, accurate information, empowering informed decisions, enhanced collaboration.

BI-GPT
An advanced data visualization accelerator that empowers non-technical users to perform visual data analysis using only their natural language.

Intelligent Accounts Payable
A cutting-edge, Agentic AI-driven solution designed to streamline and automate the invoice management process.

AI Accelerator
Designed to fast-track your Agentic AI, Gen AI, and ML adoption journey, providing end-to-end support from use case co-creation to full-scale rollout and ongoing operations.

Technologies

Agentic AI Frameworks
OpenAI Agents SDK
Google ADK
CrewAI
LangGraph
Semantic Kernel
Autogen

Large Language Models
OpenAI
Qwen
DeepSeek
Mistral
LLaMA
Gemini
Anthropic
AWS Bedrock
Azure Open AI
Claude
Open Source models (on-prem)

Data Engineering
Azure Data Factory
Azure Functions
AWS Lambda Function
AWS Step Functions
Glue
Databricks

The ITWorx Advantage:
Experience, Expertise, Excellence:

30+ Years of Proven Expertise

Deep Domain Expertise & Cross-Industry Acumen

Global Talent Pool

Data & AI Engineering Excellence

Scalability & Resilience

Proprietary Accelerators & Frameworks

Technology Partners
Microsoft · aws · snowflake · databricks · ULTiPA
